HR8300 - HR8349, FC8600 - FC8649, FC8200 - FC8219, Electrolux bag vacuum cleaners, AEG bag vacuum cleaners, Tornado bag vacuum cleaners, Volta bag vacuum cleaners

# Highlights

## s-bag

s-bag is the standard disposable dust bag that is widely available and easily recognizable by its logo. It is suitable for bag vacuum cleaners of Philips, Electrolux, AEG, Volta, and Tornado.

## s-bag HEPA - Anti-allergy

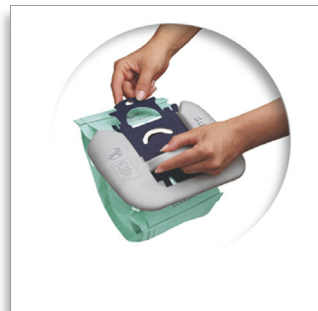

The new material is providing a filtration level at HEPA 10 that is verified by the Swedish Test Institute, SP. Although the filtration capacity is improved the clogging performance is maintained, thanks to the fine fibre distribution in the material. Higher levels of filtration normally has a negative impact on the clogging performance.

## ECARF seal of quality

Thanks to the high filtration levels of it has been awarded with the ECARF seal of quality. ECARF stands for the European Centre for Allergy Research Foundation ([www.ecarf.org](http://www.ecarf.org)).

## Special closing system

No contact with the dust thanks to the patented closing system.
