

NGS WIRELESS SET EPSILON KIT

2.4 GZH KEYBOARD + MOUSE + ANDROID DEVICE OTG ADAPTER

Epsilon Kit formed by a mouse, keyboard and OTG connector ("On the Go") that will allow you to use the mouse and keyboard with your computer, tablet or Android Smartphone.

At the same time you this adapter can work as a data transmitter between the various types of USB storage devices, such as flash memories to transfer files (photos, videos, documents) from your mobile device to another device.

Epsilon Kit stands out for its functionality, its technical features enable users with their daily computing tasks. The optical mouse 800/1200/1600 dpi features high precision movements. Includes anti-skid scroll to provide extra grip and 3 buttons. Its streamlined design brings modernity to this kit.

This Kit is provided with 10 commonly used multimedia keys, such as: direct access to the Internet browser, computer sleep mode, volume control and mute, etc.

The keyboard incorporates Caps lock, number lock and low battery LED indicators.

Furthermore, NGS Epsilon Kit includes Plug & Play function through its NANO receiver and wireless 2.4GHz USB connection that permits connecting the device to the computer immediately.
