LED Bluetooth® Speaker

Wireless Music Playback, Multicolored LED Lights, Control Buttons, USB-A Port, Micro-SD Card Slot, 3.5 mm Audio Port

Part No.: 165303

EAN-13: 0766623165303 | UPC: 766623165303

This Manhattan LED Bluetooth® Speaker is a wireless speaker that can follow the party no matter where it goes. Bluetooth technology allows it to connect to smartphones, tablets, laptop computers and other devices from up to 10 m (30 feet) away. Its compact size fits easily into a bag or backpack. What's even better is that it doesn't need to be connected via Bluetooth for you to enjoy your music. Plug a Micro-SD memory card or USB flash drive into the back and use the built-in MP3 player to rock out. Or, you can connect a 3.5mm stereo cable (not included) to the headphone jack of your audio device, then plug the other end into the audio jack on the back of the speaker for wired audio playback. If those cool features weren't enough, the speaker has an internal microphone for making and taking calls, a rechargeable battery that will last for up to 5 hours when connected wirelessly and Bluetooth media controls that will let you pause, play and switch tracks on your connected device.

Features:

- Wireless playback from Bluetooth-compatible devices
- USB-A port for MP3 playback
- Micro-SD card slot for MP3 playback
- 3.5 mm audio port for wired use
- Integrated microphone and controls for calls and music
